AKPOM, CHIMDINDU KENECHUKWU

Email: chimdinduakpom1@gmail.com
Location: New GRA, Trans-Ekulu, Enugu (Nigeria)
Contact: (+234) 9046140229

PROFESSIONAL SUMMARY

Junior Software/Web Developer with practical experience building responsive and interactive web applications using HTML, CSS, and JavaScript. Knowledgeable in AI integration, with a strong interest in combining design, problem-solving, and technology to create functional and user-friendly digital solutions.

EDUCATION

Spring of Life and Fountain of Wisdom Schools - SSCE | (July 2026)
Enugu, Nigeria

RELEVANT WORK EXPERIENCE

Codeville Tech Program — Genesys Tech Hub, Enugu
July 2023 - August 2023 | Enugu, Nigeria

- Developed foundational programming skills through hands-on coding projects and practical exercises

- Designed and built basic websites while learning core principles of web development and user interaction
- Applied problem-solving and logical thinking to robotics and technology-based projects

Web Development Intern — Genesys Tech Hub (Upskill Program)
September 2026 – Present | Virtual/Enugu, Nigeria

- Developing responsive web pages using modern web development tools and practices.
- Applying front-end development skills to build functional and user-friendly web interfaces
- Strengthening coding, debugging, and problem-solving skills through hands-on projects

Information Technology (IT) Intern — Tech4youth Program

September 2026 – Present | Enugu, Nigeria

- Gaining hands-on experience in software development and information technology practices
- Applying technical skills to practical projects while developing problem-solving and programming abilities
- Learning and working with modern digital tools and technologies in a professional environment

PROJECTS

HomeDev (Architectural Web Platform & AI Application)

An innovative architectural platform designed to connect global architects with users who want to design their dream homes. Users can create initial building designs directly on the platform and submit them to architects, whose full professional details and contact information are listed.

Tech Stack: HTML, CSS, JavaScript, Hugging Face AI API.

Key Highlight: Combines web development skills with self-taught AI implementation to deliver an interactive architectural tool.

I-Mart (Web Application)

A user-friendly e-commerce platform designed to provide a seamless online shopping experience. Users can browse available products, view detailed product information, and interact with the platform through a simple and intuitive interface.

Tech Stack: HTML, CSS, JavaScript.

CERTIFICATIONS

Certifications & Trainings

- Foundational software development and coding coursework — Codeville, Genesys Tech Hub (July – Aug 2023)

SKILLS

- HTML & CSS
- JavaScript
- Responsive Web Design
- Front-End Development

- UI Development
- Git & GitHub
- Web Application Development
- Problem Solving
- Debugging & Testing
- Basic Database Management

LANGUAGE

English: Native Language; Advanced levels in Reading, Writing, Listening and Speaking.
